# Where We Are Now

- Boots from .iso
- Implemented a math library
- Updated graphics library
- Reading from disk at block and offset
- Refactored code
- Improved knowledge of code base
- Coding standards and [style guide](#)
- Updated README

# By Next Week...

- Write to disk at offset
- kmalloc complete
- Basic paging implementation
- Basic UI controls
- Command history
- Trial run of Jira
- Read from a file

# Now for some demos

- Disk Read
- Graphics
